EDUCATION

University of Pennsylvania

Candidate for Master of Applied Economics and Data Science

Philadelphia, PA

Aug. 2026 - Dec. 2027

Relevant Coursework: Econometrics, Machine Learning, Computational Methods for Economists, Applied Microeconomics, Applied Macroeconomics

Boston University

B.A. in Economics, cum laude | GPA: 3.80/4.00

Boston, MA

Sep. 2022 - May 2026

PROFESSIONAL EXPERIENCE

Beijing Didi Infinity Technology and Development Co., Ltd. (DiDi)

Business Analytics Intern, Express Delivery Business

Beijing, China

Jun. 2026 - Aug. 2026

- Maintained a weekly user-frequency segmentation report, decomposing completed-order volume into active users and completed orders per user to diagnose weekly anomalies and profile new customers by service category and acquisition channel.
- Produced the two-wheel and four-wheel user analysis for the H1 review, profiling high-frequency and overlapping high-frequency users by service category, geography, and trip distance.
- Compared four-wheel delivery order requests with the prior-year period, isolated the primary channel behind a narrowing year-over-year gap, and measured cross-penetration with an adjacent freight service to assess additional adoption potential.
- Conducted competitive analyses using user overlap and crossover-user profiles; designed questions and synthesized findings for a driver work-pattern study.
- Built an AI Skill-enabled workflow that reduced weekly report turnaround time from 1-2 days to less than half a day.

Seniverse

Product Analytics Intern, Energy Market Research

Beijing, China

Jun. 2025 - Jul. 2025

- Cleaned and segmented Jiangsu electricity-market policies, trading rules, and June-September generation and consumption data in Python and Excel; tested hourly and daily relationships between clearing prices, load, and generation sources.
- Developed linear-coupling and random forest price models, compared explanatory performance, identified key price drivers, and delivered a visual research report.

Guotai Junan Securities Beijing Branch (now Guotai Haitong Securities)

Research Intern

Beijing, China

Jun. 2024 - Jul. 2024

- Structured a China-Japan macroeconomic comparison across real estate, household consumption and savings, population aging, and industrial transformation; reconciled macroeconomic data and research from leading securities firms.
- Independently developed a thematic presentation and presented the team's findings to senior stakeholders to support quarterly strategy discussions.

PROJECT EXPERIENCE

E-Commerce Analytics Consulting Project | Advised by a Senior Data Scientist at Meta

Data Analyst

Remote

Sep. 2025 - Nov. 2025

- Analyzed 885,000 browsing, cart, and purchase events from 407,000 users and 563,000 purchase records from 93,800 users in Python and SQL, evaluating conversion, average order value, time-of-day patterns, and segment purchasing behavior.
- Applied RFM analysis and K-means clustering to identify four customer-value segments and three engagement groups, developing strategies to retain high-value customers, reactivate inactive users, and convert cart users into purchasers.
- Built an XGBoost model using RFM metrics, tenure, purchase history, spend, and category breadth to predict 30-day customer spend; tuned hyperparameters with five-fold cross-validation.

LEADERSHIP EXPERIENCE

Boston University Chinese Students and Scholars Association (BU CSSA)

Director, General Affairs Department (promoted from Secretary and Member)

Boston, MA

Sep. 2022 - May 2026

- Managed and trained a 30-member team and led events for 100-400+ attendees, including three freshman orientation events, Bloom Fest, and Lunar New Year celebrations.

SKILLS

Technical: Python, SQL, R, Tableau, Excel, PowerPoint

Languages: Mandarin Chinese (native), English (professional proficiency)
